COMPLETE FIRE & LIFE SAFETY ENGINEERING SOLUTIONS

Engineering Excellence. Regulatory Compliance • Trusted Protection

Consultancy • Design • Supply • Installation •
Audit • Training • Maintenance • AMC

Protecting Lives . Protecting Assets. Ensuring Compliances

Fire & Life Safety Consultants | Engineering | Supply | Installation | AMC

WHY CHOOSE

AAGNAYE TECH SOLUTIONS

End-to-End Solutions

From consultancy and system design to supply, installation, testing, commissioning and AMC under one reliable partner.

Flexible Project Execution

Engineers & trainers on demand

Engineering Led Approach

Practical, reliable and cost-effective engineering solutions backed by experienced professionals.

Compliance Focused

Solutions designed in accordance with NBC, IS Codes, NFPA guidelines and applicable statutory requirements.

PAN India Operations

Execution support through our trusted associate network across India for timely project delivery.

Client First

Responsive communication, timely delivery, technical assistance and long-term customer relationships.

Protecting Lives | Protecting Assets | Ensuring Compliance

COMPANY OVERVIEW

Aagnaye Tech Solutions Founded with a vision to deliver engineering-driven Fire & Life Safety solutions, Aagnaye Tech Solutions provides consultancy, design, supply, installation, testing, commissioning, training and maintenance services across India.

- Consultancy
- Design
- Supply
- Installation
- Testing
- Training
- AMC

ENGINEERING EXPERTISE

Experienced professionals delivering practical, reliable and standards-compliant fire safety solutions.

COMPLIANCE FOCUSED

Solutions designed in accordance with NBC, IS Codes, NFPA guidelines and client-specific requirements.

PAN INDIA OPERATIONS

Strong associate network supporting project execution across India.

CUSTOMER CENTRIC

Focused on quality, timely execution, transparent communication and long-term client relationships.

OUR VISION, MISSION & VALUES

VISION

To become one of India's most trusted Fire & Life Safety engineering companies by delivering reliable, compliant and innovative safety solutions.

MISSION

Deliver end-to-end Fire & Life Safety consultancy, engineering, supply, installation, training and maintenance services with quality, compliance and customer satisfaction at every stage.

CORE VALUES

Safety First
Integrity
Professional Excellence
Regulatory Compliance
Customer Commitment
Continuous Improvement

COMPLETE SERVICES

End-to-end Fire & Life Safety solutions tailored to your project requirements.

ENGINEERING & CONSULTANCY

- Fire Safety Consultancy
- System Design & Engineering
- Code Compliance
- BOQ & Technical Specifications

FIRE SAFETY EQUIPMENT SUPPLY

- Fire Alarm Systems
- Fire Pump & Hydrant Systems
- Sprinkler Systems
- Gas Suppression
- Emergency Lighting

INSTALLATION & COMMISSIONING

- Installation
- Testing & Commissioning
- System Integration
- Documentation & Handover

TRAINING, INSPECTION & MAINTENANCE

- Fire Safety Training
- Fire Safety Audits
- AMC & Preventive Maintenance
- Mock Drills & Emergency
- Preparedness

One Partner. Complete Protection.

Protecting Lives | Protecting Assets | Ensuring Compliance

FIRE PROTECTION SYSTEMS

We design, engineer, install and maintain reliable fire protection systems that safeguard people, property and business continuity while ensuring compliance with applicable safety standards.

FIRE ALARM & DETECTION SYSTEM

Intelligent addressable and conventional fire alarm systems for early fire detection and rapid emergency response.

FIRE HYDRANT SYSTEM

Complete hydrant network including pumps, landing valves, hose reels, piping and accessories designed to applicable standards.

AUTOMATIC SPRINKLER SYSTEM

Automatic wet, dry, pre-action and deluge sprinkler systems for effective fire suppression and property protection.

FIRE PUMP SYSTEM

Design, supply, installation, testing and commissioning of electric, diesel and jockey pump systems.

GAS SUPPRESSION SYSTEM

Clean agent fire suppression systems for data centers, electrical rooms, control rooms and critical facilities.

EMERGENCY LIGHTING & EXIT SIGNS

Emergency escape lighting, illuminated exit signs and evacuation guidance systems for safe occupant evacuation.

Protecting Lives | Protecting Assets | Ensuring Compliance

FIRE SAFETY AUDITS & RISK ASSESSMENT

Audit Scope

- Fire Alarm Systems
- Fire Hydrant Systems
- Automatic Sprinkler Systems
- Fire Pump Systems
- Gas Suppression Systems
- Emergency Lighting & Exit Signs
- Means of Escape
- Fire Safety Documentation
- Recommendation

What We Audit

- System Design Compliance
- Installation Quality
- Equipment Condition
- Functional Performance
- Accessibility & Housekeeping
- Maintenance Records
- Statutory Compliance
- Emergency Preparedness

Our Deliverables

- Detailed Audit Report
- Risk Assessment
- Compliance Gap Analysis
- Corrective Action Plan
- Photographic Evidence
- Priority Classification
- Executive Summary
- Follow-up Support

Client Benefits

- Improved Fire Safety
- Regulatory Compliance
- Reduced Business Risk
- Better System Reliability
- Enhanced Asset Protection
- Insurance Readiness
- Safer Workplace
- Peace of Mind

Protecting Lives | Protecting Assets | Ensuring Compliance

EQUIPMENT SUPPLY

We supply a comprehensive range of certified Fire & Life Safety equipment from trusted manufacturers, ensuring reliability, performance and compliance with applicable national and international standards.

Equipment We Supply	Our Advantages
 Fire Alarm Systems	Certified Products
 Fire Hydrant Systems	Competitive Pricing
 Sprinkler Systems	Technical Support
 Fire Pump Systems	Timely Delivery
 Fire Extinguishers	Reliable Procurement
 Hose Reels & Accessories	Warranty Support
 Gas Suppression Systems	Reputed Brands
 Emergency Lighting	Standards Compliant

Quality Products | Timely Delivery | Technical Support

Protecting Lives | Protecting Assets | Ensuring Compliance

EQUIPMENT INSTALLATION & COMMISSIONING

We provide complete installation, testing and commissioning services for Fire & Life Safety systems, ensuring quality workmanship, regulatory compliance and reliable system performance throughout every stage of project execution.

Key Services

- ✓ Fire Alarm System Installation
- ✓ Fire Hydrant & Sprinkler Installation
- ✓ Fire Pump Installation
- ✓ System Integration
- ✓ Testing & Commissioning
- ✓ Documentation & Handover
- ✓ Client Training & Demonstration
- ✓ Final Acceptance Support

Qualified Engineers | Quality Workmanship | Timely Execution | Testing & Verification | Smooth Handover

FIRE SAFETY TRAINING

We deliver practical fire safety training programs that improve emergency preparedness, workplace safety and regulatory compliance through classroom sessions, demonstrations and mock drills.

Class Room Training

Theory sessions covering fire prevention, fire behavior, emergency procedures, evacuation planning and applicable fire safety regulations.

Fire Extinguisher Training

Hands-on training on the selection, safe operation and effective use of different types of portable fire extinguishers.

Mock Drill

Practical fire evacuation drills designed to evaluate emergency preparedness, response time and team coordination

Fire Hydrant Training

Practical operation of hydrant systems, hose reels, landing valves and firefighting equipment under simulated conditions.

Emergency Response Team(ERT)

Specialized training for Emergency Response Teams covering incident response, communication, evacuation and initial firefighting.

Training Documentation & Certification

Attendance records, training reports, competency assessments and participation certificates for compliance and record keepings.

Practical Learning | Mock Drills | Certified Training | Emergency Preparedness

Protecting Lives | Protecting Assets | Ensuring Compliance

AMC & PREVENTIVE MAINTENANCE

OUR AMC SERVICES

- Fire Alarm Systems
- Fire Hydrant Systems
- Automatic Sprinkler Systems
- Fire Pump Systems
- Gas Suppression Systems
- Emergency Lighting
- Exit Signs
- Fire Extinguishers

MAINTENANCE ACTIVITIES

- Routine Inspection
- Preventive Maintenance
- Functional Testing
- Calibration & Adjustments
- Cleaning & Servicing
- Fault Rectification
- Spare Part Replacement
- System Performance Verification

DOCUMENTATION

- Maintenance Reports
- Inspection Checklists
- Test Certificates
- Defect Reports
- Service History
- Compliance Records
- Asset Register Updates
- AMC Visit Reports

CLIENT BENEFITS

- Reduced Equipment Downtime
- Extended Equipment Life
- Improved System Reliability
- Regulatory Compliance
- Lower Maintenance Costs
- Business Continuity
- Faster Fault Resolution
- Peace of Mind

Reduced Downtime | Extended Equipment Life | Business Continuity

PROJECT EXECUTION PROCESS

From initial consultation to long-term maintenance, we follow a structured execution methodology that ensures quality, safety, timely delivery and complete client satisfaction.

PROJECT PLANNING

- Requirement Analysis
- Site Survey & Assessment
- Engineering Design
- BOQ & Proposal

PROJECT EXECUTION

- Equipment Procurement
- Material Inspection
- Installation
- System Integration

TESTING & HANDOVER

- Testing & Commissioning
- Client Training
- Documentation
- AMC & Support

Our structured delivery process ensures quality, safety, compliance and timely project completion.

COMPLIANCE & STANDARDS

Applicable Standards

- National Building Code (NBC)
- IS Codes / BIS Standards
- NFPA Standards
- Local Fire Authority Requirements

Product Offered

- UL Listed Products
- FM Approved Equipment
- CE Certified (where applicable)
- ISO Certified Manufacturers

DOCUMENTATION

- BOQ & Technical Submittals
- Material Data Sheets
- Test Certificates
- As-Built Drawings
- O&M Manuals

Quality Assurance

- Factory Tested Equipment
- Installation Inspection
- Testing & Commissioning
- Final Compliance Verification
- Client Handover Documentation

Code Compliant | Certified Products | Quality Assured | Proper Documentation
